*A Quote from Pope Francis on Marriage:
"Living together is an art, a patient,
beautiful and amazing journey that doesn't
end when you've won over each others'
hearts, rather that's exactly when it begins."*

*The Family is a Privileged Site of God's
Self-Revelation...The Gospel of the family
spans the history of the world.*

With these words, Pope Francis draws
attention to a truth that courses through
the scriptures. God has chosen the
family as a privileged place to reveal how
God acts and relates to humanity and
the world.

Looking at marriage and family in the
light of God's Word Pope Francis says:
*The Bible is full of families, births, love
stories and family crises. This is true from its
very first page...to its very last page. (§8)*

*Jesus' description of the two houses, one
built on rock and the other on sand (cf. Mt
7:24-27), symbolises any number of family
situations shaped by the exercise of their
members' freedom, for, as the poet says,
"every home is a lampstand". (§8)*
