## 228,855 children living in poverty in your area\*

The cost of living crisis is having a devastating effect on families in your local community, with as many as 1 in every 3 children living in poverty in some areas. With parents having to choose between paying bills, food or fuel, the school holidays are going to be a particularly difficult time for those facing the most risk.

Yes ☐ I'd like to help children and families in my area today.
